Pedagogy is an encompassing term concerned with what a teacher does to influence learning in others. As the importance of high quality early childhood education and care services for children has become more clearly understood, so has the teacher/educator's role in the provision of these services.

what is Pedagogy?

How does it influence our practice?

Pedagogy is defined as “any conscious activity by one person designed to enhance learning in another” (Watkins & Mortimer, 1999, p. 3). Inquiry pedagogy therefore, is based around a set of teaching and learning strategies that involve student-centred research and investigation that encourages metacognitive thought processes, discussion and collaboration.

Inquiry Pedagogy - 21st Century HSIE

The implications for pedagogy of these two models are that they shift the focus from simply trying to

transmit information to a group of individual learners to the process of building a community of learners engaged in the generation and evaluation of knowledge and in which the teacher makes explicit her knowledge at the same time as promoting access to other sources.
