The Person-Centred Care Toolkit has been developed with NHS England to support GPs and primary care teams deliver person-centred care. People with multiple long-term conditions account for about 50% of all GP appointments but the current 10-minute GP consultation doesn't allow enough time to effectively address all health and well-being issues.

Person-Centred Care Toolkit - RCGP

Put simply, being person-centred is about focusing care on the needs of the person rather than the needs of the service. Most people who need health care these days aren't happy just to sit back and let health care staff do what they think is best. They have their own views on what's best for them and their own priorities in life.

What person-centred care means | First Steps | RCN

A person-centred care approach helps the patient to perform as many everyday activities by themselves as they can. This is important for encouraging the development of the patient's skills and creating more confidence in the journey to recovery. Although in this approach the persons boundaries must be recognised and not pushed too far.
