An Applied Approach *Houghton Mifflin College Division*

Designed specifically for the non-math major who will be using calculus in business, economics, or life and social science courses, Calculus: An Applied Approach, 7/e, addresses students' weak math skills through added structure and guidance on how to study math. Special student-success-oriented sections include chapter-opening Strategies for Success; What You Should Learn—and Why You Should Learn It; Section Objectives; Chapter Summaries and Study Strategies; Try Its; Study Tips; and Warm-Up exercises. In addition the text presents Algebra Tips at point of use and Algebra Review at the end of each chapter. A strong support package includes the HM mathSpace CD-ROM—which further emphasizes algebra review—and Instructional DVDs that allow students to review material outside of class. Approximately 6,000 exercises progress from skill-development problems to more challenging, real-world application questions and are easily customized to the difficulty level of the instructor's choice. In

addition, a number of relevant exercises from textbooks in other disciplines—such as biology, chemistry, economics, finance, geology, physics, and psychology—to show students that they will use calculus in future courses outside of the math curriculum. Algebra Review offers students algebraic support at point of use and at the end of the chapter. The end-of-chapter Algebra Review illustrate the key algebraic concepts called out in the Algebra Reviews used throughout the chapter. This feature is designed to help students who may have weak algebra skills and need help as they take a calculus course. Prerequisite Review exercises at the beginning of each exercise set help students review skills covered in previous sections. The answers are provided at the back of the text, enabling students to check their work. Discovery Projects expose students to concepts before the topic is covered in the text. This allows students to explore the concept on their own, making them more likely to remember the results. Take Another Look, appearing just before each section exercise set, asks students to look back at one or more concepts presented in the section. Post-Graduation Exam Questions appear at the end of each chapter. They include sample questions representative of the types of questions on various standardized tests (i.e. GMAT, CPA exams, GRE, College Level Academic Skills Test). Business Capsules appear at the end of numerous sections. Along with accompanying exercises, these features deal with business situations related to the mathematical concepts covered in the chapter. Ready to use and easy to integrate into your calculus course, Eduspace, powered by Blackboard, brings your students quality homework, tutorials, and testing while saving you time. Browser-based, algorithmically generated homework problems are scored for you automatically. You determine whether the grade is recorded and how much each assignment counts toward a final grade.

Calculus I *Brooks/Cole Publishing Company*

Ideal for the single-variable, one calculus course, Calculus I, 8/e, contains the first 6 chapters of Calculus, 8/e. The text continues to offer instructors and students new and innovative teaching and learning resources. The Calculus series was the first to use computer-generated graphics (Third Edition), to include exercises involving the use of computers and graphing calculators (Fourth Edition), to be available in an interactive CD-ROM format (Fifth Edition), to be offered as a complete, online calculus course (Sixth Edition), and to offer a two-semester Calculus I with Precalculus text. Every edition of the book has made the mastery of traditional calculus skills a priority, while embracing the best features of new technology and, when appropriate, calculus reform ideas. Now, the Eighth Edition is the first calculus program to offer algorithmic homework and testing created in Maple so that answers can be evaluated with complete mathematical accuracy. Two primary objectives guided the authors in writing this book: to develop precise, readable materials for students that clearly define and demonstrate concepts and rules of calculus; and to design comprehensive teaching resources for instructors that employ proven pedagogical techniques and saves the instructor time. The Eighth Edition continues to provide an evolving range of conceptual, technological, and creative tools that enable instructors to teach the way they want to teach and students to learn the way they learn best. The Larson program offers a variety of options to address the needs of any calculus course and any level of calculus student, enabling the greatest number of students to succeed. The explanations, theorems, and definitions have been thoroughly and critically reviewed. When necessary, changes have been made to ensure that the text is pedagogically sound, mathematically precise, and comprehensible. The exercise sets have been carefully and extensively examined to ensure they cover all calculus topics appropriately. Many new exercises have been added at the suggestion of a number of calculus instructors. A variety of exercise types are included in each exercise set. Questions involving skills, writing, critical thinking, problem-solving, applications, and real-data applications are included throughout the text. Exercises are presented in a variety of question formats, including matching, free response, true/false, modeling, and fill-in the blank. The Eduspace online resources have been integrated into a comprehensive learning system that combines numerous dynamic calculus resources with online homework and testing materials. The Integrated Learning System addresses the changing needs of today's instructors and students. Recognizing that the calculus course is presented in a variety of teaching and learning environments, the program resources are available in print, CD-ROM, and online formats. Eduspace, powered by Blackboard provides instructors with online courses and content in multiple disciplines. By pairing the widely recognized tools of Blackboard with quality, text-specific content from Houghton Mifflin (HMC), Eduspace makes it easy for instructors to create all or part of a course online. Homework exercises, quizzes, tests, tutorials, and supplemental study materials all come ready-to-use. Instructors can choose to use the content as is, modify it, or even add their own. Eduspace with eSolutions combines all the features of Eduspace with an electronic version of the textbook exercises and the complete solutions to the odd-numbered text exercises, providing students with a convenient and comprehensive way to do homework and view the course

materials. SMARTHINKING online tutoring brings students real-time, online tutorial support when they need it most.
