After recreating the missing cards from the 15th century Tarocchi decks to form the U.S. Games' reproduction of the Visconti-Sforza Tarot, Luigi Scapini was apparently inspired to create his own version of the Tarot in a similar genre.

General Meaning. This suit, most often named Coins or Pentacles, is a symbol for a magical talisman that represented wealth or potential. This suit represents something supportive that is available to you -- whether it be health, some kind of talent, a material or financial resource. A Four in this suit has been used to express the paradoxical aspect of material security -- the two-edged sword of having been well supported and protected.

Medieval Scapini combines the traditional trumps of the early Italian style tarot with the more modern system of illustrating the pips, all in incredibly detailed artwork. The colors are vivid but not too rich like normal medieval decks. That allows it to be a lighter deck and more open to interpretation. I believe it helps to develop intuition. This is not a dark or heavy deck in any sense of the word, for there are no violent or bloody pictures.

The minor cards are illustrated, unlike the visconti-sforza, making it easier to read. The cards are a little bigger than normal decks and have a nice sheen, without being overly glossy.
