SAGE Books - Communication Theory: Media, Technology, Society

Theories of mass communication have changed dramatically since the early 1900s, largely as a result of quickly changing technology and more sophisticated academic theories and research methods. A quick overview of the state of the media in the early 1900s and in the early 2000s provides some context for how views of the media changed.

Media, Technology, and Communication

Media is a term that refers to all print, digital, and electronic means of communication. From the time the printing press was created (and even before), technology has influenced how and where information is shared.

Media and Technology in Society | Introduction to Sociology

In the 1920s, early theories of mass

communication were objective, and social-scientific reactions to the largely anecdotal theories that emerged soon after mass media quickly expanded. These scholars believed that media messages had strong effects that were knowable and predictable.

15.2 Functions and Theories of Mass Communication ...

Practitioners of the uses and gratifications theory study the ways the public consumes media. This theory states that consumers use the media to satisfy specific needs or desires. For example, you may enjoy watching a show like *Dancing With the Stars* while simultaneously tweeting about it on Twitter with your friends. Many people use the Internet to seek out entertainment, to find information, to communicate with like-minded individuals, or to pursue self-expression.

2.2 Media Effects Theories - Understanding Media and Culture

Communication Theories. Actor-Network Theory (ANT) Actor-Network Theory suggests that human and non-human factors are equally influential in the success of technological innovation and scientific knowledge-creation. The theory looks at how networks are formed and how these networks contribute to these successes.

Communication Theories - Communication Studies

Communication theory was proposed by S. F. Scudder in the year 1980. It states that all living beings existing on the planet communicate although the way of communication is different. Plants communicate their need to be taken care of and watered immediately through visible changes in the colour of

the leaves, and the falling of leaves and flowers.

Communication Models and Theories

OVERVIEW A linear communication theory which suggests that the media has a direct and powerful influence on audiences, like being injected with a hypodermic needle. This theory suggests that the media can't tell you what to think but it can tell you what to think about. Through a process of selection, omission and framing, the media

MEDIA INFLUENCE: COMMUNICATION THEORIES

Other theories (social presence, SIDE, media naturalness) are concerned with the consequences of those media choices (i.e., what are the social effects of using particular communication media). Social presence theory (Short, et al., 1976) is a seminal theory of the social effects of communication technology. Its main concern is with telephony and telephone conferencing (the research was sponsored by the British Post Office, now British Telecom).
