International Political Economy By Thomas

Thomas Oatley's International Political
Economy provides essential background
to the interplay of economic behavior
and political institutions. It takes
seriously the role that economics plays
in defining the interests of political
actors but also introduces the student to
the operation of institutions that govern
international trade and finance.

Edited by Thomas Oatley and W. Kindred Winecoff. This extensive Handbook provides an in-depth exploration of the political economy dynamics associated with the international monetary and financial systems. Leading experts offer a fresh take on research into the interaction between system structure, the self-interest of private firms, the political institutions within which governments make policy, and the ideas that influence beliefs about appropriate policy responses.

International Political Economy by Thomas Oatley - Alibris UK

International political economy, also known as global political economy, refers to either economics or an interdisciplinary academic discipline that

analyzes economics, politics and international relations. When it is used to refer to the latter, it usually focuses on political economy and economics, although it may also draw on a few other

distinct academic schools, notably political science, also sociology, history, and cultural studies. IPE is most closely linked to the fields of macroeconomics
