But as James R. Ryan argues in *Picturing Empire*, Victorian photographs reveal as much about the imaginative landscapes of imperial culture as they do about the real subjects captured within their frames. Ryan considers the role of photography in the exploration and domestication of foreign landscapes, in imperial warfare, in the survey and classification of racial types, in hunting with the camera, and in teaching imperial geography to British schoolchildren.

Coinciding with the extraordinary expansion of Britain's overseas empire under Queen Victoria, the invention of photography allowed millions to see what they thought were realistic and unbiased pictures of distant peoples and places. This supposed accuracy also helped to legitimate Victorian geography's illuminations of the "darkest" recesses of the globe with the "light" of scientific mapping techniques.

The twelve scholarly essays that make up *Picturing Place: Photography and the Geographical Imagination* underscore the vast intellectual distance traveled from William Henry Fox Talbot's 1844 assertion that his invention was the "pencil of nature." Nor is the medium conceived of here as the "bastard of science left on the doorstep of art," to borrow a phrase from curator Peter Galassi.

Abstract. This essay investigates the conditions of portrait photography in Taiwan during Japanese colonization. After a brief introduction to the theoretical issues concerning the indexical nature of the photograph, I consider the Japanese colonial photographic industry and its products (portraits) in three contexts: the state of photographic technology in the world at that time, the ideological machinery of colonization in Taiwan, and the wider phenomenon of colonial mimicry.
