Population And Communities

Answer Key

- A population is composed of a single species while a community has more than one population. • The number of individuals is higher in a community than in a population of the same ecosystem. • Individuals in a population can breed to produce fertile

offspring but not all the individuals in a community. • Different populations make a community while few communities would make an ecosystem.

Population And Communities

Answer Key - mallaneka.com

How does a young couple begin to build a community? That question has been on my mind since my daughter and son-in-

law became Chabad emissaries to an expansive rural town on the East Coast. For all its landmass, the town has a small population and is home to fewer than a thousand Jews. I couldn't imagine how my daughter and her husband would go about creating a community there. Perhaps they ...
