Health Assessment and Physical Examination *Cengage AU*

Health assessment is an ongoing process that evaluates the whole person as a physical, psychosocial and functional being, whether they are young or old, well or ill. This market-leading text presents health assessment, physical examination information and skills for health professionals who undertake these types of assessments. Health Assessment and Physical Examination is scaffolded from foundation to more advanced health assessment, following a body-systems approach and a 'head-to-toe' approach. It uses the ENAP (Examine-Normal-Abnormal-Pathophysiology)

approach as a tool for students to collect useful information. An applied case study at the end of each chapter walks students through an example of an assessment. This comprehensive yet student-friendly text is noted for its high-quality case studies, pedagogical elements, and excellent student resources. Unique to this text are the advanced topics and 'Urgent findings', which highlights serious or life-threatening signs or critical assessment findings that need immediate attention.

Evidence-Based Physical Examination

Best Practices for Health & Well-Being Assessment *Springer Publishing Company*

The first book to teach physical assessment techniques based on evidence and clinical relevance. Grounded in an empirical approach to history-taking and physical assessment techniques, this text for healthcare clinicians and students focuses on patient well-being and health promotion.
