From Global to Local Vintage

This brilliantly original book dismantles the underlying assumptions that drive the decisions made by companies and governments throughout the world, to show that our shared narrative of the global economy is deeply flawed. If left unexamined, they will lead corporations and countries astray, with dire consequences for us all. For the past fifty years or so, the global economy has been run on three big assumptions: that globalization will continue to spread, that trade is the engine of growth and development, and that economic power is moving from the West to the East. More recently, it has also been taken as a given that our interconnectedness—both physical and digital—will increase without limit. But what if all these ideas are wrong? What if everything is about to change? What if it has already begun to change but we just haven't noticed? Increased automation, the advent of additive manufacturing (3D printing, for example), and changes in shipping and environmental pressures, among other factors, are coming together to create a fast-changing global economic landscape in which the rules are being rewritten—at once a challenge and an opportunity for companies and countries alike.

The issues of gender violence, touching on sex, race, age, and power, are as urgent today as they were when she first testified. *Believing* is a story of America's three decades long reckoning with gender violence, one that offers insights into its roots, and paths to creating dialogue and substantive change. It is a call to action that offers guidance based on what this brave, committed fighter has learned from a lifetime of advocacy and her search for solutions to a problem that is still tearing America apart. We once thought gender-based violence—from casual harassment to rape and murder—was an individual problem that affected a few; we now know it's cultural and endemic, and happens to our acquaintances, colleagues, friends and family members, and it can be physical, emotional and verbal. Women of color experience sexual harassment at higher rates than White women. Street harassment is ubiquitous and can escalate to violence. Transgender and nonbinary people are particularly vulnerable. Anita Hill draws on her years as a teacher, legal scholar, and advocate, and on the experiences of the thousands of individuals who have told her their stories, to trace the pipeline of behavior that follows individuals from place to place: from home to school to work and back home. In measured, clear, blunt terms, she demonstrates the impact it has on every aspect of our lives, including our physical and mental wellbeing, housing stability, political participation, economy and community safety, and how our descriptive language undermines progress toward solutions. And she is uncompromising in her demands that our laws and our leaders must address the issue concretely and immediately.

(This Is Not A) Mixtape for the End of the World bd-studios.com

Daniel M. Shapiro's *(This Is Not A) Mixtape for the End of the World* is a collection of prose poems inspired by the heyday of MTV pop music videos. The poems distill the juxtaposition of sunny materialism and Cold War trepidation that define so many music videos of the 1980s. Shapiro chips away at nostalgia while clinging to what makes his source material so catchy. A series of artworks by Stephen Tornero accompanies the poems. Much like the period's music, the bold excess, bright colors, and festive abstractions stand in contrast to the decade's underbelly.

All's Well Simon and Schuster

From the author of *Bunny*, which Margaret Atwood hails as "genius," comes a "wild, and exhilarating" (Lauren Groff) novel about a theater professor who is convinced staging Shakespeare's most maligned play will remedy all that ails her—but at what cost? Miranda Fitch's life is a waking

nightmare. The accident that ended her burgeoning acting career left her with excruciating chronic back pain, a failed marriage, and a deepening dependence on painkillers. And now, she's on the verge of losing her job as a college theater director. Determined to put on Shakespeare's *All's Well That Ends Well*, the play that promised and cost her everything, she faces a mutinous cast hellbent on staging *Macbeth* instead. Miranda sees her chance at redemption slip through her fingers. That's when she meets three strange benefactors who have an eerie knowledge of Miranda's past and a tantalizing promise for her future: one where the show goes on, her rebellious students get what's coming to them, and the invisible doubted pain that's kept her from the spotlight is made known. With prose Margaret Atwood has described as "no punches pulled, no hilarities dodged...genius," Mona Awad has concocted her most potent, subversive novel yet. *All's Well* is a "fabulous novel" (Mary Karr) about a woman at her breaking point and a formidable, piercingly funny indictment of our collective refusal to witness and believe female pain.

Nicomachean Ethics *Phoemixx Classics Ebooks*

Nicomachean Ethics Aristotle - The *Nicomachean Ethics* is one of Aristotle's most widely read and influential works. Ideas central to ethics—that happiness is the end of human endeavor, that moral virtue is formed through action and habituation, and that good action requires prudence—found their most powerful proponent in the person medieval scholars simply called "the Philosopher." Drawing on their intimate knowledge of Aristotle's thought, Robert C. Bartlett and Susan D. Collins have produced here an English-language translation of the *Ethics* that is as remarkably faithful to

the original as it is graceful in its rendering. Aristotle is well known for the precision with which he chooses his words, and in this elegant translation his work has found its ideal match. Bartlett and Collins provide copious notes and a glossary providing context and further explanation for students, as well as an introduction and a substantial interpretive essay that sketch central arguments of the work and the seminal place of Aristotle's *Ethics* in his political philosophy as a whole. The *Nicomachean Ethics* has engaged the serious interest of readers across centuries and civilizations—of peoples ancient, medieval, and modern; pagan, Christian, Muslim, and Jewish—and this new edition will take its place as the standard English-language translation.

This Is the End of Something But It's Not the End of You

Adam Gnade's third novel *This is the End of Something But It's Not the End of You* is held up by a Springsteenian sense of hope and a desire for redemption, of finding glory and escape, friendship and love in hard times. Like Dickens' *David Copperfield*, Ferrante's *Neapolitan tetralogy*, and Karl Ove Knausgaard's *My Struggle* series, this is the story of a human life, kindergarten to adulthood, ratty beach apartment to bohemian party house, feverish basement to ramshackle farmhouse. Through the eyes of Gnade's protagonist, James Jackson Bozic, we see how life scars you, changes you as you fight to find a safe place for yourself. It is, in turn, a murder mystery, a love story, and a vast, sweeping, panoramic look at America on the edge of collapse. It's a story of displacement, strange shores, new mornings. As James says in the book, I thought of how sometimes in the midst of survival, life will jerk you away from your home, how it will push you out across the map, away from the people you love, or into the path of others. *This Is the End...* is about scratching and clawing for a better, safer, more satisfying life, even as the sky comes crashing down.

The Goldfinch *Little, Brown*

A young New Yorker grieving his mother's death is pulled into a gritty underworld of art and wealth in this "extraordinary" and beloved Pulitzer Prize winner that "connects with the heart as well as the mind" (Stephen King, New York Times Book Review). Theo Decker, a 13-year-old New Yorker, miraculously survives an accident that kills his mother. Abandoned by his father, Theo is taken in by the family of a wealthy friend. Bewildered by his strange new home on Park Avenue, disturbed by schoolmates who don't know how to talk to him, and tormented above all by a longing for his mother, he clings to the one thing that reminds him of her: a small, mysteriously captivating painting that ultimately draws Theo into a wealthy and insular art community. As an adult, Theo moves silkily between the drawing rooms of the rich and the dusty labyrinth of an antiques store where he works. He is alienated and in love -- and at the center of a narrowing, ever more dangerous circle. *The Goldfinch* is a mesmerizing, stay-up-all-night and tell-all-your-friends triumph, an old-fashioned story of loss and obsession, survival and self-invention. From the streets of New York to the dark corners of the art underworld, this "soaring masterpiece" examines the devastating impact of grief and the ruthless machinations of fate (Ron Charles, Washington Post).

Why do cultures commit suicide? Why are we witnessing a new great extinction of peoples? Why is the economic crisis really a spiritual crisis? Probing the inner workings of civilization in a tour d'horizon of cultural decline, Spengler argues that Europe's postnational, secular dystopia is a death trap, that the onslaught of modernity has plunged Islam into an even greater crisis, and that the destiny of nations is decided in the human heart, by religion. Christian America, in spite of its follies and gullibility, has the spiritual strength to restore the faith of the West. This book presents, in one comprehensive volume, the wide scope of Spengler's theories on Christianity, Islam, America, the financial crisis, horror movies, modern art, Israel, Tolkien's Middle Earth, tribalism, the global balance of power, demography, and sex in the twenty-first century. he global balance of power, demography, and sex in the twenty-first century.
