The most successful Lister engine was the D-type engine, introduced from 1931, most versions of which were rated at 1.5 horsepower at 700 RPM. More than 250,000 'D' engines were built until 1964. They were used for a wide variety of light tasks such as pumping and small-scale electricity generation. The Lister 'D' is still one of the most widely seen vintage stationary engines in the UK. lister d stationary engine | eBay

Used lister d stationary engine. I bought this a few years ago as a light refurb project but I never got round to it, and as space is now needed, it has to go. As can be seen in the pics, it's in nice condition, the engine turns over freely with good compression, although I've not had it running. It's been stored in a dry heated garage.
