Knowing the difference between renewable and non-renewable resources will help us to better understand them. Renewable resources do not extinct easily and so they are sustainable in nature. Conversely, non-renewable resources deplete over time, i.e. they are exhaustible in nature, which can be ended when they are prone to large

scale consumption.

Difference Between Renewable and Non-renewable Resources ...

Renewable resources are resources that can be replaced as they are used. Some renewable resources that can be used for making electricity include geothermal, hydroelectric, solar, and wind energy. Advantages—A small amount of nuclear fuel can produce a large amount of electricity and it does not pollute the air like fossil fuels.
