Therapeutic Consultations In Child Psychiatry

D. W. Winnicott was a well known paediatrician and psychoanalyst; this book, written towards the end of his career (=so building on long experience) presents a large number of consultations with children and young people; Winnicott offers them his own very particular way of listening and communicating, and a way of playing together, in order to reach, by the end of the session, a shared understanding of what's the main difficulty facing the child (or the family as a whole) at that particular ...

Throughout the text, Dr. Winnicott describes children, adolescents (and one adult) who suffer from various degrees of neurotic, borderline, and psychotic anxieties. His use of a long consultation interview (the "therapeutic consultation" of the title) and his use of the "Sguiggle Game" (an interactive drawing technique) allow Dr. Winnicott to achieve remarkable depth and results in a short time.

At TTC we also believe that most people also benefit from therapeutic treatment and would recommend a combination of both. Most child psychiatrists will also have experience of a range of therapeutic models

which they draw on in their treatment, and many will have completed one or more additional therapeutic trainings eg. psychodynamic psychotherapy, family therapy or cognitive behaviour therapy (CBT).
