"Teaching Critical Thinking Online" by Astleitner, Hermann ... Instead of teaching generic critical-thinking skills, we ought to focus on subject-specific critical-thinking, which can broaden a student's individual subject knowledge, one researcher argues.

Why we should stop teaching generalized critical thinking ... Higher-order thinking involves the learning of complex judgmental skills such as critical thinking and problem solving. Higher-order thinking is more difficult to learn or teach but also more valuable because such skills are more likely to be usable in novel situations (i.e., situations other than those in which the skill was learned).

Higher-order thinking - Wikipedia How to teach critical thinking. Daniel Willingham is a Professor of Psychology at the University of Virginia. His paper explores the ongoing debate over how critical thinking skills are developed and taught. He also outlines a plan for teaching specific critical thinking skills. Willingham argues that while there is plenty of evidence to support explicit instruction of critical thinking skills, the evidence for how well critical thinking skills transfer from one problem to another is mixed.

Given research in cognitive psychology, some educators believe that schools should focus more on teaching their students critical thinking skills, intellectual standards, and cultivating intellectual traits (such as intellectual humility, intellectual empathy, intellectual integrity, and fair-mindedness) than on memorizing facts by rote learning.

Critical thinking | Psychology Wiki | Fandom From primary to post-secondary school, critical thinking (CT) is an oft cited focus or key competency (e.g., Alberta Education, 2015; Australian Curriculum Assessment and Reporting Authority, n.d.; California Department of Education, 2014; DeAngelo et al., 2009). Unfortunately, the definition of CT has become so broad that it can encompass nearly anything and everything (e.g., Johnson & Hamby ...

Frontiers | Redefining Critical Thinking: Teaching ... Although critical thinking is very difficult to teach, and often does not transfer across domains (Halpern, 1998), there is incremental value in providing multiple opportunities to practice critical thinking while learning new scientific content (Willingham, 2007). My position is not restricted to the use of creationism to teach critical thinking.
