As an investor, you should be looking at the debt:equity ratio of the company. Debt:Equity ratio = long term liabilities / owner's equity. For example, say that a company has debt of £6000 and equity of £15,900. The ratio would equate to 0.38 (6000/15900). This means that the company has three times more equity to debt.

CONSOLIDATED OR COMPANY ACCOUNTS? For accounting purposes, companies are treated as being part of the same group when they are all ultimately owned and controlled by the same source, and are run as if they were a single economic entity. As shown in section 2.5, the parent company of the Yorkshire Water group is Kelda Holdings Limited. That is owned by four different shareholders – banks and investment companies that have separate economic interests and sources of control.
