Graph practice for science | Teaching Resources

Part of the GED Mathematical Reasoning test focuses on your ability to understand data presented in graph form, whether a graph, plot, histogram, or table. You may also be asked to plot data points on a coordinate plane. Graphs are used more for revealing the

significance of data and spotting trends and less for presenting precise values. During the actual test, you may be instructed to click an area of the graph to plot a point; you just need to get pretty close to the precise spot.
