Market failure refers to the inefficient distribution of goods and services in the free market. In a typical free market, the prices of goods and services are determined by the forces of supply and demand Supply and Demand The laws of supply and demand are microeconomic concepts that state that in efficient markets, the quantity supplied of a good and quantity demanded of

that good are equal to each other.

Market Failure - Definition, Causes, and How to Address

Abstract. The contention that “inclusive” institutions are the deep determinants of economic growth remains unsatisfactory. This paper develops an alternative theoretical and empirical case that economic structures are the fundamental cause of economic performance.

Economic structures determine the rate of structural learning, affect institutional performance, influence the distribution of income and establish the direction of political transitions, thereby, economic performance.
