Execution Currency

#1 NEW YORK TIMES BESTSELLER • More than two million copies in print! The premier resource for how to deliver results in an uncertain world, whether you're running an entire company or in your first management job. "A must-read for anyone who cares about business."—The New York Times When Execution was first published, it changed the way we did our jobs by focusing on the critical importance of "the discipline of execution": the ability to make the final leap to success by actually getting things done. Larry Bossidy and Ram Charan now reframe their empowering message for a world in which the old rules have been shattered, radical change is becoming routine, and the ability to execute is

more important than ever. Now and for the foreseeable future: • Growth will be slower. But the company that executes well will have the confidence, speed, and resources to move fast as new opportunities emerge. • Competition will be fiercer, with companies searching for any possible advantage in every area from products and technologies to location and management. • Governments will take on new roles in their national economies, some as partners to business, others imposing constraints. Companies that execute well will be more attractive to government entities as partners and suppliers and better prepared to adapt to a new wave of regulation. • Risk management will become a top priority for every leader. Execution gives you an edge in detecting new internal and external threats and in weathering crises that can never be fully predicted. Execution shows how to link together people, strategy, and operations, the three core processes of every business. Leading these processes is the real job of running a business, not formulating a "vision" and leaving the work of carrying it out to others. Bossidy and Charan show the importance of being deeply and passionately engaged in an organization and why robust dialogues about people, strategy, and operations result in a business based on intellectual honesty and realism. With paradigmatic case histories from the real world—including examples like the diverging paths taken by Jamie Dimon at JPMorgan Chase and Charles Prince at Citigroup—Execution provides the realistic and hard-nosed approach to business success that could come only from authors as accomplished and insightful as Bossidy and Charan.

The Leader in Me *Simon and Schuster*

Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -

- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

4 Disciplines of Execution

The Four Disciplines of Execution is about a simple, proven formula for reaching the goals you want to reach as a business or individual. In Covey's experience, the thing that most undermines the ability to execute goals is what he calls the Whirlwind: those urgent tasks that must be done simply to keep an organization

alive. As Covey shows, the only way to execute new, important goals is to separate those goals from the Whirlwind. The Four Disciplines allow leaders to create a strategy that requires a change in behaviour, since only by ensuring that everyone on the team understands the goal, knows what to do to reach it and knows whether progress is being made, will a leader produce consistent breakthrough results while sustaining the urgent work of the Whirlwind. The Four Disciplines of Execution are: 1. Focus on the Wildly Important; 2. Act on the Lead Measures; 3. Keep a Compelling Scoreboard; 4. Create a Cadence of Accountability. For more than a decade Franklin Covey has been studying what it takes to achieve important goals, and in this book they share success stories from a wide range of companies that have implemented the Four Disciplines to result in greater profits, increased market share and improved customer satisfaction. This way of thinking is essential to any company that wants to not only weather, but thrive in this economy.

The 8th Habit *Simon and Schuster*

In the 7 Habits series, international bestselling author Stephen R. Covey showed us how to become as effective as it is possible to

be. In his long-awaited new book, *THE 8th HABIT*, he opens up an entirely new dimension of human potential, and shows us how to achieve greatness in any position and any venue. All of us, Covey says, have within us the means for greatness. To tap into it is a matter of finding the right balance of four human attributes: talent, need, conscience and passion. At the nexus of these four attributes is what Covey calls voice - the unique, personal significance we each possess. Covey exhorts us all to move beyond effectiveness into the realm of greatness - and he shows us how to do so, by engaging our strengths and locating our powerful, individual voices. Why do we need this new habit? Because we have entered a new era in human history. The world is a profoundly different place than when *THE 7 HABITS OF HIGHLY EFFECTIVE PEOPLE* was originally published in 1989. The challenges and complexity we face today are of a different order of magnitude. We enjoy far greater autonomy in all areas of our lives, and along with this freedom comes the expectation that we will manage ourselves, instead of being managed by others. At the same time, we struggle to feel engaged, fulfilled and passionate. Tapping into the higher reaches of human genius and motivation to find our voice requires a new mindset, a new skill-set, a new tool-set - in short, a whole new habit.

The Four Obsessions of an Extraordinary Executive *John Wiley & Sons*

A gripping tale that reveals what occupies the minds of the world's best business leaders As CEO, most everything that Rich O'Connor did had something to do with at least one of the four disciplines on his famed "yellow sheet." Some of the firm's executives joked that he was obsessed with it. Interestingly, only a handful of people knew what was on that sheet, and so it remained something of a mystery. Which was okay with Rich, because no one really needed to understand it, other than him. He certainly never suspected that it would become the blueprint of an employee's plan to destroy the firm. In this stunning follow-up to his best-selling book, *The Five Temptations of a CEO*, Patrick Lencioni offers up another leadership fable that's every bit as compelling and illuminating as its predecessor. This time, Lencioni's focus is on a leader's crucial role in building a healthy organization - an often overlooked but essential element of business life that is the linchpin of sustained success. Readers are treated to a story of corporate intrigue as Rich O'Connor, fictional CEO of technology consulting company Telegraph Partners, faces a leadership challenge so great that it threatens to topple his company, his career and everything he holds true about what makes a leader truly exceptional. In the story's telling, Lencioni deftly helps his readers understand the disarming simplicity and power of creating a healthy organization and reveals four key disciplines that they can follow to achieve it. In *The Four Obsessions of an Extraordinary Executive*, Lencioni delivers an utterly gripping tale with a powerful and memorable message for all who strive to be remarkable leaders.

Summary of The 4 Disciplines of Execution BookSummaryGr

Summary of The 4 Disciplines of Execution Who is this summary for? The 4 Disciplines of Execution by Chris McChesney is an excellent guide to removing the distractions of the day-to-day tasks in your day job and being able to focus on 'Wildly Important Goals' and execute these excellently. McChesney produces a straightforward and actionable step-by-step guide that could transform the way you and your team work. Great for anyone looking for a little bit of guidance in the workplace and particularly useful for anyone in a leadership position. Chris McChesney began his career working with Stephen R. Covey within the Franklin Covey organisation. McChesney has dedicated his work to helping organisations achieve the results they are after by improving their execution. His book, The 4 Disciplines of Execution has been hugely successful and was a Wall Street Journal #1 National Best Seller. McChesney has become well known for his high-energy keynote speeches and presentations. McChesney lives with his wife and has seven children. As the title suggests, McChesney outlines what he considers to be the 4 most important disciplines for executing tasks and hitting goals. This summary will cover each of the 4 disciplines and discuss how they can be enacted. The first discipline we will cover is focusing on the wildly important. Discipline two covers acting on the lead measures followed by discipline three: keeping a compelling scoreboard. Finally, we'll cover discipline four: creating a cadence of accountability. "The real enemy of execution is your day job! We call it the whirlwind. It's the massive amount of energy that's necessary just to keep your operation going on a day-to-day basis; and ironically, it's also the thing that makes it so hard to

execute anything new. The whirlwind robs from you the focus required to move your team forward." Chris McChesney, Sean Covey, and Jim Huling, authors of The 4 Disciplines of Execution, are definitely on to something when they pinpoint "the whirlwind" as the main detractor of execution success. And they spend the entirety of their excellent book detailing just how to avoid the trap of the daily grind. Achieving your "wildly important goals" through mindful execution is key. Their combined business experience is impressive. All leaders at Franklin Covey with decades of business know-how, these guys "completed more than fifteen hundred implementations of the 4 Disciplines (4DX) before they were ready to write this book" and they have created a set of tools that can be useful for a single person, small business, or large international company. It doesn't hurt that "4 Disciplines" is a #1 business bestseller recommended by The Wall Street Journal. Or, that the book leads with pages of endorsements by the likes of author Stephen R. Covey, and CEOs of companies like Kroger, Wegmans, and the Campbell Soup Company, and even Nobel Peace Prize Winner, Mohammed Yunus. This is an impressive book, years in the making. What I particularly liked about this book is that it is about taking action on your strategic goals, not developing more theory. There are four clear roadmaps to help you overcome the "whirlwind" of the day-to-day work that keeps leaders, and teams, from executing the programs that drive real change. The Four Disciplines are: Focus on the Wildly Important. Act on the Lead Measures. Keep a Compelling Scoreboard. Create a Cadence of Accountability. So, how do you begin to create the mindset that will help you take action on the four? Here is a Preview of What You Will Get: - A

Summary of The 4 Disciplines of Execution by Chris McChesney, Sean Covey, and Jim Huling | Includes Analysis Preview: The 4 Disciplines of Execution is a guide for businesses to reliably commit to the goals and plans they set, authored by associates from FranklinCovey, a management consultancy. Rather than focusing on what a business must accomplish to be successful, the four disciplines establish how to accomplish those things. One reason commitments tend to be abandoned in business is that new projects and goals are less urgent than the day-to-day tasks of each individual employee, which the authors call the "whirlwind." The key to commitment fulfillment is for new tasks to take up only a small portion of each employee's time, but for that employee to be held accountable for completing them. The first discipline is to settle on one or two wildly important goals (WIGs). These are the things that would have the most significant

impact on progress toward the business's long-term goals. In the second discipline, the WIG... PLEASE NOTE: This is key takeaways and analysis of the book and NOT the original book. The Speed of Trust *Simon and Schuster*

From Stephen R. Covey's eldest son come a revolutionary book that will guide business leaders, public figures and their organizations towards unprecedented productivity and satisfaction. Trust, says Stephen M. R. Covey, is the very basis of the 21st century's global economy, but its power is generally overlooked and misunderstood. Covey shows you how to inspire immediate trust in everyone you encounter - colleagues,

constituents, the marketplace - allowing you to forego the time-killing and energy-draining check and balance bureaucracies that are so often relied upon in lieu of actual trust.

The Three Signs of a Miserable Job *John Wiley & Sons*

A bestselling author and business guru tells how to improve your job satisfaction and performance. In his sixth fable, bestselling author Patrick Lencioni takes on a topic that almost everyone can relate to: the causes of a miserable job. Millions of workers, even those who have carefully chosen careers based on true passions and interests, dread going to work, suffering each day as they trudge to jobs that make them cynical, weary, and frustrated. It is a simple fact of business life that any job, from investment banker to dishwasher, can become miserable. Through the story of a CEO turned pizzeria manager, Lencioni reveals the three elements that make work miserable -- irrelevance, immeasurability, and anonymity -- and gives managers and their employees the keys to make any job more fulfilling. As with all of Lencioni's books, this one is filled with actionable advice you can put into effect immediately. In addition to the fable, the book includes a detailed model examining the three signs of job misery and how they can be remedied. It covers the benefits of managing for job fulfillment within organizations -- increased productivity, greater retention, and competitive advantage -- and offers examples of how managers can use the applications in the book to deal with specific jobs and situations. Patrick Lencioni (San Francisco, CA) is President of The Table Group, a management consulting firm specializing in executive team development and organizational health. As a consultant and

keynote speaker, he has worked with thousands of senior executives and executive teams in organizations ranging from Fortune 500 companies to high-tech startups to universities and nonprofits. His clients include AT&T, Bechtel, Boeing, Cisco, Sam's Club, Microsoft, Mitsubishi, Allstate, Visa, FedEx, New York Life, Sprint, Novell, Sybase, The Make-A-Wish Foundation, and the U.S. Military Academy at West Point. Lencioni is the author of six bestselling books, including *The Five Dysfunctions of a Team*. He previously worked for Oracle, Sybase, and the management consulting firm Bain & Company.

The Advantage *John Wiley & Sons*

There is a competitive advantage out there, arguably more powerful than any other. Is it superior strategy? Faster innovation? Smarter employees? No, New York Times best-selling author, Patrick Lencioni, argues that the seminal difference between successful companies and mediocre ones has little to do with what they know and how smart they are and more to do with how healthy they are. In this book, Lencioni brings together his vast experience and many of the themes cultivated in his other best-selling books and delivers a first: a cohesive and comprehensive exploration of the unique advantage organizational health provides. Simply put, an organization is healthy when it is whole, consistent and complete, when its management, operations and culture are unified. Healthy organizations outperform their counterparts, are free of politics and confusion and provide an environment where star performers never want to leave. Lencioni's first non-fiction book provides leaders with a groundbreaking, approachable model for achieving

organizational health—complete with stories, tips and anecdotes from his experiences consulting to some of the nation's leading organizations. In this age of informational ubiquity and nano-second change, it is no longer enough to build a competitive advantage based on intelligence alone. The Advantage provides a foundational construct for conducting business in a new way—one that maximizes human potential and aligns the organization around a common set of principles.

Summary of The 4 Disciplines of Execution

Note: This is a Summary of *The 4 Disciplines of Execution: Achieving Your Wildly Important Goal* by: Sean Covey, Jim Huling and Chris McChesney. *The 4 Disciplines of Execution* is a guide for businesses to reliably commit to the goals and plans they set, authored by associates from FranklinCovey, a management consultancy. Rather than focusing on what a business must accomplish to be successful, the four disciplines establish how to accomplish those things. One reason commitments tend to be abandoned in business is that new projects and goals are less urgent than the day-to-day tasks of each individual employee, which the authors call the "whirlwind." The key to commitment fulfillment is for new tasks to take up only a small portion of each employee's time, but for that employee to be held accountable for completing them. The first discipline is to settle on one or two wildly important goals (WIGs). These are the things that would have the most significant impact on progress toward the business's long-term goals. Streaking *Page Two*

Greater Than Goals. More Powerful Than Habits. Discover Your Streaks Most of us have a vision for ourselves and who we want to be: a top-notch professional in our field; a fantastic parent and friend; a physically fit, healthy person; someone who sets and achieves goals in multiple areas of life. But, amid the busy-ness of our days and all the competing demands, we often fall short of our hopes for ourselves. How could we possibly fit in another activity to become the person we've always dreamed we could be? In this practical, step-by-step guide, authors Jeffery Downs and Jami Downs show you how, by introducing the art of streaking (not that kind) to gain mastery in whatever area you choose to improve. To streak is to deliberately select a laughably simple activity--such as writing one sentence a day, doing seven push-ups a week, making one cold call a month--to repeat and record it over time, and to build a community around it as you do. As you create this structure for consistent wins, your actions align with your vision for yourself, and your confidence grows. Drawing on examples from winning athletes and teams, businesses, and communities to demonstrate the laws of streaking, the authors reveal how to choose exactly the right activities that will propel you forward. Streaking reveals a tried and true methodology and the key strategies to progress in your life, for incredible results. You will learn how to: - successfully integrate daily, weekly, or monthly activities that align with your goals; - overcome natural tendencies that keep you stuck; - stack streaks that support your desired results, and then level up; - start again (or revise your streak), if you falter; - and much more. Whether you seek to improve in your professional life, in personal pursuits, or both, Streaking gives you the tools to purposely advance, to transform

yourself into the person you've always wanted to be.

A New Culture of Learning *CreateSpace*

The twenty-first century is a world in constant change. In A New Culture of Learning, Doug Thomas and John Seely Brown pursue an understanding of how the forces of change, and emerging waves of interest associated with these forces, inspire and invite us to imagine a future of learning that is as powerful as it is optimistic. Typically, when we think of culture, we think of an existing, stable entity that changes and evolves over long periods of time. In A New Culture, Thomas and Brown explore a second sense of culture, one that responds to its surroundings organically. It not only adapts, it integrates change into its process as one of its environmental variables. By exploring play, innovation, and the cultivation of the imagination as cornerstones of learning, the authors create a vision of learning for the future that is achievable, scalable and one that grows along with the

technology that fosters it and the people who engage with it. The result is a new form of culture in which knowledge is seen as fluid and evolving, the personal is both enhanced and refined in relation to the collective, and the ability to manage, negotiate and participate in the world is governed by the play of the imagination. Replete with stories, this is a book that looks at the challenges that our education and learning environments face in a fresh way. PRAISE FOR A NEW CULTURE OF LEARNING "A provocative and extremely important new paradigm of a 'culture of learning', appropriate for a world characterized by continual change. This is a must read for anyone interested in the future of education." James J. Duderstadt, President Emeritus, University of Michigan "Thomas and Brown are the John Dewey of the digital age." Cathy Davidson, Professor of Interdisciplinary Studies, Duke University "A New Culture of Learning may provide for the digital media and learning movement what Thomas Paine's Common Sense did for the colonists during the American Revolution- a straightforward, direct explanation of what we are fighting for and what we are fighting against." Henry Jenkins, Provost's Professor, USC "A New Culture of Learning is at once persuasive and optimistic - a combination that is all too rare, but that flows directly from its authors' insights about learning in the digital age. Pearls of wisdom leap from almost every page." Paul Courant, Dean of Libraries, University of Michigan "Brilliant.

Insightful. Revolutionary." Marcia Conner, author of The New Social Learning "Douglas Thomas and John Seely Brown portray the new world of learning gracefully, vividly, and convincingly." Howard Gardner, Professor, Harvard Graduate School of Education "Thomas and Brown make it clear that education is too often a mechanistic, solo activity delivered to the young. It doesn't have to be that way-learning can be a messy, social, playful, embedded, constant activity. We would do well to listen to their message." Clay Shirky, author of Cognitive Surplus "Anyone who fears, as I do, that today's public schools are dangerously close to being irrelevant must read this book. The authors provide a road map-and a lifeline-showing how schools can prosper under the most difficult conditions. It is a welcome departure from all the school bashing." John Merrow, Education Correspondent, PBS NewsHour "American education is at a crossroads. By illuminating how play helps to transform both information networks and experimentation, and how collective inquiry unleashes the power of imagination, A New Culture of Learning provides an irresistible path to the future." Joel Myerson, Director, Forum for the Future of Higher Education.
