Maggie Peat, Lead Research Nurse, Harrogate and District Foundation Trust and Patient and Public Involvement Lead North and East Yorkshire and Lincolnshire Comprehensive Local Research Network I was working as a

nurse giving chemotherapy.

The Role of the Clinical Research Nurse

Practitioner research refers to research and/or workplace research such as evaluation performed by individuals who also work in a professional field as opposed to being full-time academic researchers. Practitioner research developed as a recognized type of research in the last quarter of the 20th century. In this context, 'practitioner' means someone who delivers public services, such as a nurse, teacher, advice worker, probation officer, counselor or social worker.

Practitioner research - Wikipedia
Qualitative methods (interviews,

observation, documentary analysis) were used to collect data on the clinical decision making and information seeking behaviour of a purposive sample of 29 practice nurses and four nurse practitioners from general practices in the North of England. Data were collected November 2001–September 2002.
